

## About the Club...

Founded in 1973, the Elddis Owners Club consists of members from all over England, Wales and Scotland who host a number of rallies and events across all three countries.

These rallies are entirely what you make them. You can use them as a base to visit parts of the country you want to see

or you can use them purely to meet up, make new friends and have a great time.

Being a family orientated club, there are often events held for kids young and old - it really is for the whole family. Visits have included trips to indoor ski slopes, adventure parks and even gliding experiences!

## Joining the Club...

Membership costs \*£15 annually and is open to anyone who owns a caravan or motorhome produced by Elddis at the Consett factory. This also includes Buccaneer, Compass and Xplore models made after 2009.

To become a member, head to our website at [www.elddisowners.co.uk](http://www.elddisowners.co.uk) and join online.

## ...Benefits

- For your \*£15 you'll receive a Rally Events Guide, frequent newsletters, a membership card and access to our members only area online.
- Cheap holidays with whole weekends costing from as little as £15 /unit.
- A great way to explore the country and make many new friends.

## So why not give it ago?

With such a great way to use your caravan or motorhome more and see the sites that this country (and occasionally France too!), has to offer, why not join today.

No matter if young or old, children or no children, there's always a space for you on a rally field.

We hope to see you on a rally soon.
